Dengue is one of the most widespread diseases in the rural parts of India. Without proper access to clean drinking water, sanitation, and hygienic environments etc., it is very difficult to prevent the disease. Each one of us have a social responsibility, and the main Motto of the Leo Club is to instill that responsibility to everyone and lead the change.

Various students of the Leo Club have initiated and participated in giving awareness on Dengue symptoms and the prevention measures they can take. And, to check the onset and early stages of Dengue and get it treated at the hospital to the general public in the villages nearby our college.

GROCERIES DISTRIBUTION

Date:17/10/2023

Leo Club and Unnat Bharat Abhiyan jointly organise GROCERIES DISTRIBUTION for needy people of Ariyavur village. Leo club members of AIMA College of Arts and Science for women planned to visit the Ariyavur village to distribute groceries among the people on 17.10.2023.

Food is one of the basic necessities of life. India's prevalence of undernourishment rate is at 16.6%. In the 2023 Global Hunger Index, India ranks 111th out of the 125 countries. All throughout India, large numbers of people do not have enough to eat, especially women and children. Of the 1.3 billion living in India, over 194 million people, or 14.5%, are undernourished. Human beings cannot think well, sleep well if one hasn't dined well. Each one of us has a social responsibility, and the main Motto of the Leo Club is to instill that responsibility to everyone and lead the change.

Various students of the Leo Club have initiated and participated in distributing groceries (rice, sugar, oil, dhal) to the people in need in the villages nearby our college.

When you spend more time on social media or playing games than you do interacting with real people, or they cannot stop themselves from repeatedly checking texts, emails, or apps-even when it has negative consequences in your life - it may be time to reassess your technology use.

The students' passionate engagement during the event extended beyond vocal expressions and visual demonstrations. They distributed informational materials, outlining the risks associated with mobile addiction and providing resources for those seeking help.
