ISO 9001:2015 Certified Institution

K. Sathanur, Tiruchirappalli - 620 021.

ECO CLUB

WORLD ENVIRONMENTAL DAY

05th JUNE 2024

REPORT

The Eco club, AIMAAN College of Arts and Science for Women organizing a **World Environment Day**, observed annually on June 5th, is a global event aimed at raising awareness and promoting action for the protection of our environment. In 2024, the day was marked with various initiatives and activities around the world, all geared towards addressing pressing environmental issues and fostering a sustainable future. By encouraging our students to plant trees in their homes and communities, the day inspired meaningful action and fostered a sense of environmental responsibility among the youth, paving the way for a greener and more sustainable future.

Our Students were tasked with planning and planting at least one tree in their homes or communities. This simple yet impactful activity served multiple purposes. Firstly, it helped in combating deforestation and promoting biodiversity. Trees play a crucial role in mitigating climate change by absorbing carbon dioxide and providing habitats for various species. Additionally, planting trees in residential areas can improve air quality, reduce soil erosion, and enhance the overall aesthetic appeal of the surroundings.

Moreover, engaging students in tree planting activities provided an opportunity for environmental education and awareness-raising. By actively participating in the process of planting and caring for trees, students gained first-hand knowledge about the importance of environmental conservation and the role they can play in it.
