**“INFORMATION TECHNOLOGY BUSINESS SHAPING FUTURE OF INDIA”**

**Date: 01.08.2023**

A Seminar on “**Information Technology Business Shaping Future of India**” was organized by the Department of Business Administration in association with Institution Innovation Council of AIMAN College of Arts & Science for Women on 1<sup>st</sup> August 2023 at 10.00 am. Ms Salai Anushree.K.S. of I BBA welcomed the gathering. Ms.P. Annie Rabecca Assistant Professor, Department of Business Administration, introduced the chief guest Mr.Vinnu Collins Ruban, Lead Consultant, Infosys Technologies.

The sessions were handled by the Guest Speaker in an interactive way. He explained that there is a noticeable growth in the revenue fetched by E-commerce in the IT-BPM sector in India and the growth of IT/BPM will continue to mature in line with the earlier trends. The objective of the seminar was to give exposure to and understanding of the continuing evolution of artificial intelligence which will help optimize the business operations and take automation to new levels future, it aimed at providing information about an organization. The Chief guest said that the IT services have grown more in the year 2022 as the pandemic has fuelled digital spending. He added that in the last two decades the growth of Indian IT sector has changed the perception of the whole world about India’s storehouse of knowledge and skills and powered economic growth.

Around 90 Student participants from the Department of Business Administration attended the Seminar. The Session was very informative, knowledge building and helped to know the exponential growth of the IT industry in India. Finally vote of thanks was proposed by Ms.N. Rifna Shreen of II BBA.

**Experience Summary:**

I am a Lead Consultant with Infosys Technologies. My overall experience amounts to 15 years. I have worked primarily in the domain of card services, financial and banking. IT experience in supporting project based on WebSphere Application Server, JBOSS, MQ administration, and Networking. I have work experience in WebSphere Application Server, WebSphere MQ, Dynatrace and managing team etc., Also being a Devops Engineer have hands on knowledge in applying Site Reliability concepts across the application.

Worked on end to end application production support and real time issue fix on production for a complete 3 tier critical application. Besides all these I also have experience of effort estimation, client interaction, onsite requirement collection and training other team members.

Worked on infrastructure activities for UNIX and Solaris/AIX/Linux servers/eCP (Enterprise Open Shift Cloud Platform) pods. My role was monitoring the performance, tuning the server, optimal use of server resource along with developing automated Python/Shell/Perl scripts for all manual activities within the application.

Along with the above mentioned tasks my role as tech lead also includes, administration activities and generation of reports. I have also been mentoring team members working under me. As a Certified Scrum master I am managing the scrum team as well and tracking their progress over JIRA Kanban
